

LETTER OF ENGAGEMENT: SafeBuyRealties Web Application Development

Date: Friday, April 17, 2026

To: SafeBuy Realties

Represented by: Mr. Oluwafemi Adisa-Isikalu

1. Introduction

This Letter of Engagement outlines the terms under which **CORNE TECHNOLOGY AND INNOVATION LABS LIMITED (trading as "Corne Labs")** will design, develop, and deliver the SafeBuyRealties web application platform.

This engagement is based on the previously shared proposal and subsequent discussions.

2. Project Overview

Corne Labs will develop a **web-based real estate marketplace platform** that enables secure property transactions through structured verification workflows and payment processes.

The objective is to deliver a **fully functional Minimum Viable Product (MVP)** that supports real-world usage across all primary user types.

3. Scope of Work (User-Based Functionality)

The platform will support the following user roles and capabilities:

Buyers

Buyers will be able to:

- Register and manage their accounts
- Browse verified property listings
- Initiate property transactions
- Make payments for due diligence and property acquisition
- Track transaction progress from their dashboard

Sellers

Sellers will be able to:

- Register and manage their accounts
- Submit property listings
- Upload required property documentation
- Track the verification status of their listings

Property Professionals (i.e., Property inspectors, surveyors, legal representatives, etc.)

Property Professionals will be able to:

- Register and maintain their profiles
- Be assigned to verification or due diligence processes
- Upload reports or supporting documents (e.g., inspection findings, legal confirmations)
- Update task status related to assigned properties

Internal Staff

Internal staff will be able to:

- Review the submitted property documents
- Manage verification workflows
- Approve or reject property listings
- Update property status within the system

Administrators

Administrators will have full system control, including:

- User management
- Property approval and status control
- Platform monitoring and oversight

Core Platform Features

The system will include:

- Property listing and submission system
- Document upload and verification workflow
- Role-based dashboards
- Payment integration (via Paystack/Flutterwave)
- Transaction tracking system

Escrow & Transaction Flow

The platform will implement a structured transaction flow where:

- Buyers initiate payments
- Property verification is completed
- Transactions are tracked within the system
- Payment release is dependent on the completion of the required conditions

Any features not explicitly stated above are considered out of scope for this phase.

4. Project Timeline

The project is expected to be completed within **6–8 weeks** from the start date.

Milestone 1 (Functional System Delivery)

Within **2–4 weeks**, Corne Labs will deliver a **functional system version** for review, which will include:

- User registration and authentication
- Role-based dashboards (Buyer, Seller, Property Professional, Staff, Admin)
- Property listing submission and display
- Document upload and verification workflow
- Core transaction flow

This version will be made available for testing and review.

Final Delivery

Final system refinement, testing, and deployment will be completed within the overall project timeline.

5. Hosting & Infrastructure

The SafeBuyRealties platform will be deployed on a secure cloud hosting environment.

Estimated hosting cost is:

₦120,000 per year

This covers:

- Application hosting
- Database hosting
- Secure document storage
- Basic monitoring and backups

Hosting costs are **separate from development fees** and will be the responsibility of the client.

Corne Labs will handle the initial setup and deployment.

6. Fees & Payment Structure

The total development fee is:

₦1,500,000 (One Million Five Hundred Thousand Naira)

Payment shall be made as follows:

- **₦500,000** – Initial deposit (to commence project)
 - **₦600,000** – Upon delivery and demonstration of Milestone 1 (functional system for review and testing), the milestone payment becomes due.
 - **₦400,000** – Upon final delivery and deployment
-

7. Deliverables

Corne Labs will deliver:

- Functional web application (MVP)
 - Source code access
 - Basic system documentation
 - Deployment setup
 - Handover session
-

8. Post-Launch Support & Maintenance

Corne Labs will provide **60 days of post-launch support at no additional cost**, covering:

- Bug fixes
- Minor adjustments
- System monitoring support

After this initial support period, ongoing maintenance will continue under a **monthly retainerhip**.

The client has opted for the **Basic Maintenance Plan** at a fee of **₦75,000 per month**

This includes: Platform monitoring, Security updates, Bug fixes, Backup monitoring, and up to 4 hours of technical support per month.

Any additional support beyond this allocation may be billed separately upon mutual agreement.

9. Change Requests

Any additional features or changes outside the defined scope will be treated as **separate work** and may affect cost and timeline.

Such changes will require mutual agreement before implementation.

10. Intellectual Property

Upon full payment:

- The client shall own the SafeBuyRealties platform, including all custom-developed code specific to this project.

However:

- Corne Labs retains ownership of all **pre-existing tools, frameworks, libraries, and reusable components** used during development.
 - Corne Labs reserves the right to reuse **general concepts, non-confidential features, architectural patterns, and reusable modules** for other projects or commercial applications, provided no proprietary elements of this platform are directly replicated.
-

11. Confidentiality

Both parties agree to maintain the confidentiality of all sensitive information shared during the project.

12. Limitation of Liability

Corne Labs shall not be liable for indirect or consequential damages.

Total liability shall not exceed the total project fee.

13. Termination

Either party may terminate this agreement with written notice.

In such cases:

- The client shall pay for all work completed up to the date of termination
 - Corne Labs shall deliver all completed work corresponding to payments received
-

14. Acceptance

By signing this document, both parties agree to the terms outlined above.
